General.

THE AFGHAN BOUNDARY QUESTION
LONDON, June 11—The report of Colonel
Sir West Ridgeway, chief of the British
Afghan Commission, which was discussed at the Cabinet council Thursday shows that the extremely critical situation of af-fairs on the Russian frontier has not been one whit exaggerated by the alarmist news brought in from time to time to th Indian Government, and urgently forced upon the attention of Loid Salisbury by the British press Colonel Ridgeway's representations indeed, ap peal more powerfully to the Government's watchfulness of British interests in India than any thing yet brought to their notice and it is difficult to conceive in the light of the complete and formidable preparations against te sistance already made by Russia how a hostile meeting of British ind Russian troops far within the boundary lines laid down by England can be avoided. Al though the strength of Russia's position on the frontier is much greater than it was at any time during the demonstration made upon the border by the Czar's troops two years ago, no sign of relaxation of her military activity in that region is apparent and the operations are not confined to the sections skirting Afghanistan On the northern frontier of Persia the greatest activity appears, and guis amu-nition and inilitary supplies are being nurmed forward with all possible speed Large forces of then are engaged in ex-tending branches of rulway from Merv and Karachaka to Turkestan, toward Meshed Person, and Herat Afghanistan and no secreey is observed in concealing the fact that these are. Russia's objective points At several points on the new frontier as deliminated by Russia berself and particularly at Zulifikar pass, Russian troops are being massed, and collisions with the Afghans which will be the signal for a general forward move ment may be expected any day As evidence that Russia's preparation

for an active campaign on the Persian and Afghan frontiers are nearly, if not altogether complete it i observed that dark hints of war with England on a grand scale are more frequent in the Rus sian press than formerly, and though nothing is permitted to be published showing the actual extent of the opera tions finished or completed, a singular unanimity of belief is expressed that unusumity of belief is expressed that when next English engineers start out in search of the northern boundaries of Afghanistan they will find them much further south than any map of the pros int day locates them

Mi Gladstone is perhaps more fully aroused to a sense of the dangers aftend

ing the present phase of the Afghan ques-tion than any other English statesman, and it can not now be doubted that his political detour involving the abandon ment of his well organized plan of deter mined and long drawn out obstruction to the Crimes bill, was made for the purpose the Crimes bill, was made in the purpose of hastening the inevitable passage of that measure, it older that the Afghan matter might receive the early partial mentary action its increasingly imperative importance demands. Meanwhile the relations between

nurkey and Russia have changed for the worse, and the two empires are drifting farther apart each day The recent alliances of the former with certain European Asiatic powers have left Russia practically isolated and the probability that the Czar's Govern ment will find itself confronted with the necessity of settling the Bulgarian ques tion symultaneously with its operations against England in Afghanistan and Persia, is growing into almost absolute

During the last few months Turkey has been very active in stirring the Bulgulian regency into mother at tempt to eatherne a prince, and the Porto's nelion in sending out circulates to the Powers requesting them to suggest a prince whose administration of the government of Bulgaria would be little or no attention would to paid to her nequest, was tracen with a view of showing to the regency the accessity for in dependent action on their part. As was expected by fur ey the regency have amounced that if the Powers 1 not an mediately nominate a prince, they will ask the Sobianie to elect one of their own thoice, and Turkey now regards herself sufficiently independent of Russia to must upon his recognition as the rightful inder

France. THE COMING CRISIS

Paris, June 11.—The discussion of the Military bill in the Chamber of Deputies Military bill in the Chamber of Deputies proves to be very bitter, and a vote on its advancement toward passage portends disaster to the government. The cabinet have taken great pains to have it understood that they jutend to carry out General Boulanger's mobilization scheme and rely upon the support of a large number of the radical members for this reason, but the appricion is gaining ground that A Great Procession, Comprising Military FINDLAY, O, June 10 -This is the third day of the Natural Gas celebration, and but the suspicion is gaining ground that then intention is primarily to save them-selves from defeat, and ultimately to carry out just as little of the late War Minister's plan as a liberal in compliment to the large number of visitors from other points who still remain in town, an extra day has been add ed to the programme and a number of in teresting events arranged for to-morrow construction of the bill will permit, and it is doubtful whether they will be able to pull through The threat of President The ball at the Wigwam last night was a great success, and when the salute of two hundred guns ushered in sunrise this drevy to resign in event of the defeat of the ministry is not believed to have strengthened the government's position Nothing would better please M. Clemenceau the cabinet's strongest opponent, than the retirement of the President, and public belief is strong that M. Gravy's sincerity will be put to the morning, dancing was still going on in the structure. The corner stones of several manufacturing establishments were laid by the Knights of Pythias after breakfast, and this afternoon adrillfor prizes aggre gating \$1,700 is in progress at Camp Gar-field. THE CROWN AND THE VATICAN

Rows, June 11 -In the Chamber o Deputies yesterday the Government was interrogated concerning certain rumors of a movement on the part of the Crown towards reconcilition with the Vatican, and an animated discussion ensued Signor Crisp: Minister of the Interior, denied that the government was seeking a reconciliation with the Pope, and declared that it was in no way concerned in whatever store the Vatican might be taken. claied that it was in no way concerned in whatever steps the Vatican might be taking with a view of effecting a religious peace with Italy Indeed, he said, the operations of the Vatican were viewed with perfect indifference by the government, but should a reconclination ever become an accomplished fact, it would never be such as would be in the least detrimental to national rights. to national rights MC'GIANN COMPLETELY ISOLATED

This morning Mr. Jerome Young eived a telegram from Atlanta, Ill., stating that Hon. A. N. Dills had died at his home in that city. His age was 67 years. The deceased leaves a widow and four children—two sons and two daughters, one of whom is Mrs. S. P. Young,

who has been visiting her father for over a week. He was also the father of Mr. F. M. Young's first wife, who died in Decatur 10 years ago. Mr. Dills was one of the prominent men of Central Illinois, and leaves an estate valued at \$100,000. He was one of the contractors for the construction of the western division of the old Illinois Midland railroad, and at the time of his death was in the agricultural implement business. Last winter he went to California with his invalid son-in-law, the late Samuel P. Young, and brought the body to Decatur for buriel on March 1st. While west he became ill, and since his return bome he has steadily grown worse. Jerome Young sent a telegram to the Hoffman House, N.1Y., informing Mr. F. M. Young of the death of Mr. Dills. Mr. Young and oride are in the east on a bridal tour, and were to have arrived in Decatur about

SENATOR JOHNS' Alien Land Bill, which as been passed by the General Assembly and sent to Gov. Oglesby for approval, does not differ materially from the Pierce bill introduced in the House, the provisions of which have already been liscussed in The Tribune. Buth were aimed at "Scullyism." The Johns bill will operate to eradicate that system in this state. Scully and every other absentee alien now owning land in Illinois will have to sell out, any that remains or their hands at the end of six years to the state, or have it confiscated to the state. They will probably dispose of it before that time or become resident citizens. The period of preparation to dispose of the land named in the bill gives ample BEGGIES to suit you at Smith & Son's time for the sale of the property. The grovery store at 733 North Water street. bill also provents the future purchase by aliens who do not intend to become citizens. It is an excellent measure, well conceived, and no doubt well drafted

Parties residing on North Water street are auxious to have the Citizens company extend the street car line in that direction, and a movement is now on foot to raise the necessary fund to have the track built. Water street should have the line. It would be a great convenience to the people, and would enhance the value of property beyond the limits and along the route.

HOOP-LA!

The Daring and Dazzling Riders with Sells' Big Circus.

The array of eminent equestrians with the Sella Brothers' show, which exhibits in Decatur Tuesday, June, 21st, is unusually imposing. The Messre, Sells have always had a penchant for equestrianism probably the most popular feature of the circus and this season they have carried out their pet idea by securing the greatest number of riders that ever appeared in one establishment. Prominent among the lady raters is the dashing and bewatching Nellie Bryant, an Ameriand bewitching Nether Bryant, an American production, but who has duzzled Europe with her matchless art during the past five years. Some of the other equestrienne stars are Mille Delmar, a French importation and the most fearless somersoult thrower of her sex; Miss Polly Lee, the brilliant and statuesque manege equestrienne; Madame Thornton, the world-renowned six-horse rider, and the Misses Lillie Ramsdelle, Mollie Stevens, Mand Armour and Estelle Irving. The ist of male riders includes William Solls, list of male riders includes William Soils, the illustrious 24-horse rider; "Bud" Gorman, the greatest living hurdle rider; Mons. Paul Dumont, the noted French equestrian juggler; "Jim" Davenport, the invincible somersault rider, and George Skerman, Eddie Patterson and Billy Museum. This is a remarkable gathering. Murray. This is a remarkable gathering, truly. All of the riders, both male and female, ride bareback horses; pad acts are conspicuous by their absence. Lovers of artistic horsemanship have a rich treat

Celebration. Goodinan's Band gave lively music in ront of the court house last evening and a great crowd collected; but only lew went into the court room to help ar ange for the proposed July 4th celebration. Owing to the slim attendance Mayor Kanan adjourned the meeting until next Tuesday evening at the same place. Decatur ought to get up a booming celebration and parade. If the business men are in earnest they should stir themselves. Time is short.

The Dramatic Festival.

There was a larger audience at the opera house last night to witness the second performance by the local dramatic club playing for the benefit of the G. A. R. relief fund. The play was the emotional 6-act drama, "Astray," with the following cast of characters:

Amauda Chandoce . . Mathilde. . . . . . . . . uzanne O'Hara Mrs. Albert Barnes
Mr. Henry L. Prather
Mr. Otto E. Cartis
Mr. Frank C. Roby
Mr. E. D. Bartholomew
Mr. Frank Curlis
Mr. Edwin Ewing
Mr. Adolph Mueller lount Gorline . dajor O'Hara . . . anontaine . . . .

The stage settings were all in good taste and the costaining beautiful. The play throughout was received with much favor because of the well connected plot, the touches of sentiment, the flashes of wit, and the perfection and smoothness of the performance. It is not necessary to make special mention of the different characters. All did very well indeed, and in many scenes the amateur artists were erty on Maryland street near the Levee, interrupted by applause. The bill for to-night is the favorite comedy, entitled "A Scrap of Paper." Cast of characters:

THOSE who are interested in making the ball games at the park a success should do what they can to patronize those who put up their money to holp keep up the organization and furnish the people an opportunity to witness good ways. Talk up all the games, make it a point to be present, and when you go out to the park ride on the street cars. The company is a big stock holder, and it doesn't look like a square deal for the patrons of the games to ride out in backs whose owners do not contribute a dollar to the enterprise, instead of patconizing the car line. Yesterday some of the directors and officers rode in backs, no friends here. when there was plenty of room in the

THE local real estate market is quiet just now, as it usually is at this season of the year, but there promises to be lively movement within a few weeks, and if there is not a very material advance in prices all signs must fail. If you want to buy anything now is the time to dip in A month hence you will have to pay more for the same property than it can be purchased for now. It has always been the case, when there has been any special activity in the market, that prices ruled higher after harvest than before. It will be the same this year.

St. Louis 6-Decatur 5.

There was an exciting game of ball at the Park yesterday afternoon between the Decatur club and the St. Louis Centrals, and the crowd was larger than at he first contest. In the first inning the Centrals made four hits off Copeland. Decatur's new pitcher, two of which were doubles, which aided by two passed balls let in 5 runs. The visitors got but three more hits after that, two in the eighth which let in another run. The Decature got seven hits off Baldwin, but they were scattered—Devore 1, Royce 1, Golden 1, Ferrell 1, Callender 2 and Copeland 1. In the 8th inning Decatur tied the score, but the Centrals went ahead one in their half and the home team was shut out in the 9th.

By Innings. . 1 2 3 4 5 6 7 8 9 Decatur, . . . 1 0 1 0 1 0 1 1 0 5 St. Louis, . . 5 0 0 0 0 0 0 1 x-6 There was some very clever playing as well as ragged work on both sides. Cope-land steadied himself after the first inland steadied himself after the first in-ning and as Golden had got used to him the battery did excellent work as the score shows. The Decaturs might have won the game in the 7th inning had Staley taken his life on third. Ferrell was on second, Staley on first, when Copeland made a hit that looked good for two bases. Ferrell came in and Staley could have gone to third while the ball was thrown to home place. He wavered and Copeland forced him off second, and and Copeland forced him off second, and the catcher threw Staley out at third. That was a costly error as there was but one man out at the time. Base hits— Decatur 7, St. Louis 7; errors—Decatur 11, St. Louis 9; struck out by Copeland
12, by Baldwin 7; passed balls—Golden

the home battery.
